

# OLD BUILDING PLANS ARE WORTH MORE THAN YOU MIGHT THINK

*Sell Access to Old Building Documents*

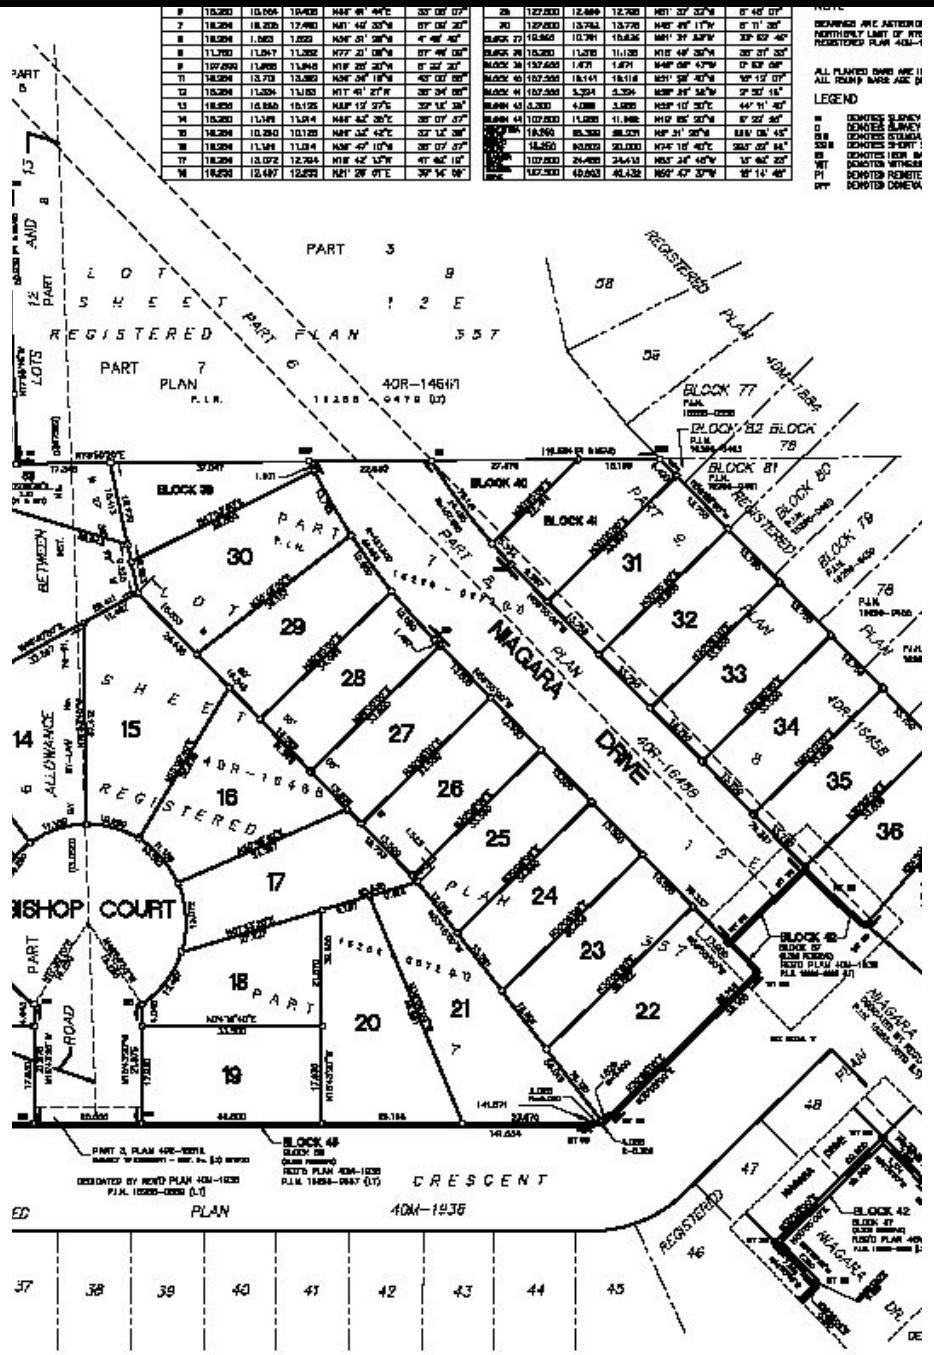

FRONT ELEVATION

# LIST BUILDING PLANS ON GOOGLE.

*CONSOLIDATE CONSTRUCTION DATA*

What better way to market your business than having all your projects featured on Google? When you upload your building plans in ABR's National GIS, they are indexed at Google by address.

# ARE YOU

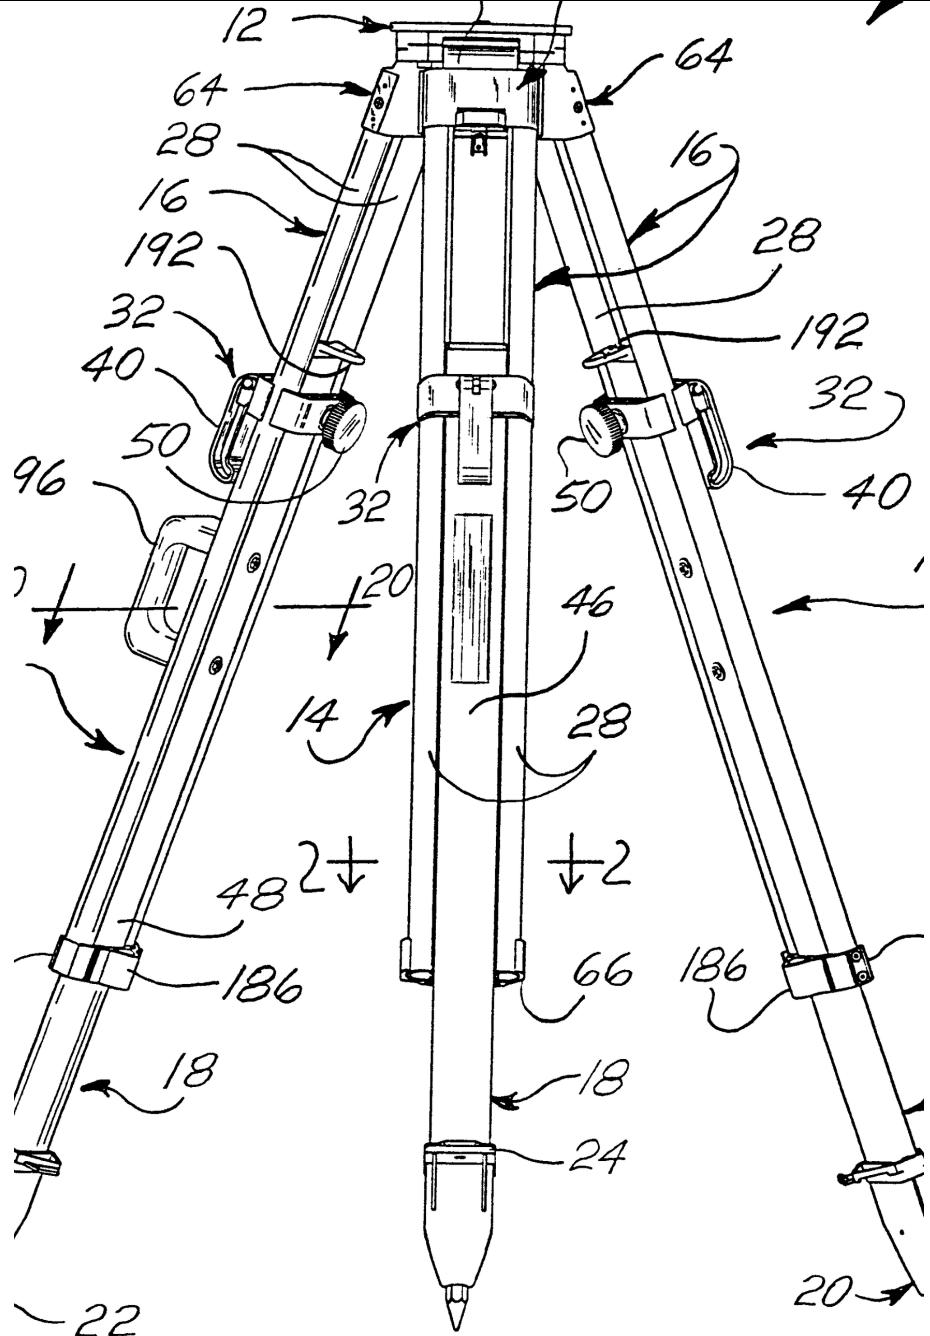

*Swimming in old survey documents and building plans connected to old projects? That data is still relevant. It can still make you money online.*

# CONSOLIDATE YOUR DATA SECURELY

*Preserve YOUR Surveying History*

Consolidate all your construction data in one geographical information system – the first national construction GIS system. Preserve all building plans and construction documents you produce every day.

## FIND CONSTRUCTION DATA FAST

Locating your own files and files others have shared has never been easier. A single master system with interactive maps and filtering options simplifies data management and ensures fast search results.

## SHARE FILES EASILY AND SECURELY

No matter where you are, you can share files using our easy sharing system. Construction plans, photos, reports, and project data are all transferred within our secure platform at your command.

# ELIMINATE THE HASSLE OF SCANNING BUILDING PLANS

*We Are Here To Help You*

Do you have paper drawings or large format blueprints but no time to scan? Not a problem, ABR staff can help you scan, tag, and map your building plans on our secure platform.

A large pile of rolled-up architectural blueprints and documents, stacked high and filling the background of the advertisement.

# THIS IS WORTH \$
